

Notice the following on the Detail Plans
in addition to an EXPLANATION of
the various features to be found on
each Plan:—

The Limits of SUBDIVISIONS are colored
BLUE or by COLORED WASHES.

Subdivision Names are printed in their
respective locations, and where none are
given square numbers apply to the original
survey.

WIDTH OF STREETS are placed at the
end of a Street on each Plan.

LOT DIMENSIONS are placed within the
Street Line, with few exceptions where they
are outside.

HOUSE NUMBERS are placed in the
Street opposite the House.

BLOCK NUMBERS can be distinguished
by HEAVY, PERPENDICULAR figures.

LOT NUMBERS can be distinguished by
HEAVY SLANTING FIGURES, or figures
placed near centre of lot.

WATER MAINS can be distinguished by
fine line.

SEWERS can be distinguished by a
HEAVY LINE.

And other features can readily be dis-
tinguished by the explanation on each
plan.
